

Overview

Good Clinical Practice (GCP) is a set of rules and regulations that are provided by ICH (International Conference on Harmonisation), an international organisation that regulates clinical trials involving human subjects. It is a standard for the design, conduct, recording, performance, analyses, reporting, monitoring, and auditing of clinical trials that provides assurance that the data and reported results are credible and accurate; and the rights, confidentiality and integrity of trial subjects are protected.

Objectives of the Workshop

1. To understand the principles underlying GCP and its specific rules of conduct.
2. To provide experience in the key skills required through simulation in classroom setting.
3. To provide the resources required to design and to conduct GCP trial.
4. To achieve an overall understanding of how to conduct GCP compliant clinical studies.

Why GCP?

In clinical studies, the protection of the subject is paramount especially when untested therapy is used. There must also be assurance about the conduct of clinical studies in terms of elimination of cheating, fraud or accidental error. The problems of poor study design must be avoided. Adherence to GCP is vital otherwise, subjects taking part in the study may be put at risk or the clinical data submitted may be rejected by health authorities and the scientific committee, if found to be unreliable. Also, the researcher and the research institution's credibility may be damaged.

GCP was adopted in 1999 in Malaysia. Since then doctors are required to undergo training on GCP leading to certification prior to conducting any clinical trials and other clinical studies. This course is specially designed to meet this requirement.

Workshop Contents

Day 1: 8 am – 5 pm

- Clinical research in Malaysia and role of CRC
- Overview of ICH/ GCP and Malaysian GCP Guideline
- Overview of ethics of clinical research, ethical principles & requirements
- Ethical problems in clinical research
- Informed consent
- Independent ethics committee

Day 2: 8 am – 5 pm

- Investigator's responsibility
- Clinical trial protocol & investigator's brochure
- Sponsor's responsibility
- Adverse event reporting and safety surveillance
- Role of study coordinator

Day 3: 8 am – 5 pm

- Adverse Event Reporting & Safety Surveillance
- Regulation of clinical research in Malaysia
- Oversight and funding for clinical research in MOH

Who should participate?

- Clinicians, nurses & allied health professionals involved in any clinical research
- Research associates & study coordinators
- Biomedical & research scientists
- Statisticians & database managers
- Experienced research personnel who are interested in updating their knowledge in GCP

REGISTRATION FORM

Name: Prof / Dr / Mr / Mrs / Ms

.....
(Please print name in block letters as you wish it to appear in the certificate)

Signature:

* Attendance is compulsory for the whole duration of workshop

Good Clinical Practice Certification Workshop

Date : 29th – 31st July 2017

Venue : Rejang Hall, Sibu Hospital,
Sibu, Sarawak

Organiser:

Co-organized with:

REGISTRATION INFORMATION

REGISTRATION FEES

MOH Staff = RM 380

Non-MOH Staff = RM 480

Late fee (after 14 July 2017): RM600

Registration fee includes all supporting documentation, workshop materials, meals and certificate of attendance.

CANCELLATION

Cancellation must be made in writing to the organiser.

- Full refund for cancellation or replacement at least 4 weeks before date of workshop;
- 50% refund for cancellation within 1 week;
- No refunds for cancellation less than 1 week or absence.

We reserve the right to cancel the workshop without liability other than return of the registration fee.

PAYMENT

Payment must be submitted at registration.
